

Ek ped Maa ke Naam programme

Date: 17th September 2025*

Today, at Carmel Convent Senior Secondary School, the programme " **EK PED MAA KE NAAM** " was carried out with great enthusiasm and dedication. As part of this initiative, nearly 1000 to 1200 saplings were planted by our students in school and at homes.

Under the motivating guidance of the Principal, Sister Ramya Vacco, the students participated with remarkable zeal. Alongside the Principal, Eco Club Incharges Mrs. Usha Singh, Mrs. Archana Dantre, Mr. John, Mrs. Hemlata Sukhija, Mr. Royal, and Mr. Alex, also extended their valuable support in making the programme impactful.

Saplings were also distributed among the students. Many

of them, in turn, planted trees at their own homes with their mothers and received online certificates for their participation.

The programme was successfully executed and became a moment of joy and learning for the students. More than just planting trees, it cultivated a sense of responsibility, gratitude towards mothers, and sensitivity towards the environment. The act symbolized the nurturing role of a mother—just as she gives life and care, trees too

give shelter, breath, and hope for the future.

With hearts filled with happiness and awareness, the students pledged to carry forward the mission of protecting and preserving nature!!
