

TALK SHOW ON EMPOWERING TEENS

A talk show on Empowering Teens was organised by the Science Department. It was an enlightening and engaging event. We delved into the various challenges and opportunities that adolescents face, offering valuable insights and practical tools for students and educators.

Our esteemed speakers, Dr. Priyanka Goswami and Mrs. Neetu Rawat, shared their expertise and experiences, emphasizing the importance of understanding and supporting young people during this critical stage of development. By fostering open communication and a supportive environment, we aim to empower our school community to navigate adolescence with confidence, resilience, and a positive outlook.
